

B4RN[®]

Broadband for the Rural North Ltd

Ultrafast
community
broadband

WHAT IS B4RN?

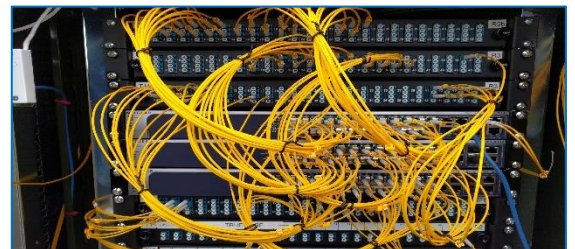

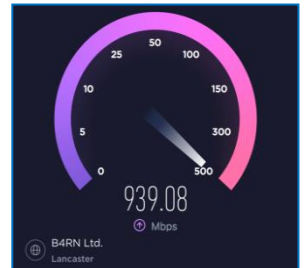

B4RN was launched in December 2011 by a local volunteer group in the Lune valley. It is a community benefit society, funded by and working for the benefit of local people. It can never become part of a commercial operation and any profits can only be used to benefit the local community. B4RN now provides broadband to over 3500 local people.
